SIR,

I have the honour to report that during my recent inspection tour, I visited Attigundi last month and found that the dispensary building there was quite inadequate and unsuitable for the purpose. The accommodation consists of a small verandah in which the dispensary proper is held, a room, threefourths of which is occupied by a big wooden cot leaving a small passage leading to another back room used as a kitchen. Even this building was badly in need of repairs and not seemed likely to stand the next monsoon.

2. These remote parts of the Malnad are, as it were, entirely cut off from civil life to which the Sub Assistant Surgeons, brought up and educated in Cities, are used and when at least proper living accommodation is not available it becomes impossible to make these Medical Subordinates go and take charge of the dispensaries in such stations. In order that the Sub Assistant Surgeon may be able to -- really help the sick, it is necessary in the first place that he should be enabled to be comfortable and fit. In my humble opinion, therefore, the provision of proper -- accommodation both for the dispensary and for its staff -- ought to be the first condition for opening such an institution in malnad.

at 4 annas a mile for 28 miles (to and fro) will come to Rs.7/- or for 8 visits, Rs.56/- a month which is within the saving shown above. When suitable buildings are provided and a Sub Assistant Surgeon becomes available, the question of re-opening the dispensary will be duly submitted to Government.

I request the favour of very early orders.

I have the honour to be,

Sir,

Your most obedient servant,

H.B. Mylrea

Sir,

With reference to your letter No.G.C.177 dated the 6th. Jany. 1922 requesting sanction to close the Dispensary at Attigundi, -- temporarily, and stating that the Sub Assistant Surgeon thereby displaced would be taken to the establishment of the newly opened Tuberculosis Sanitarium, I am directed to point out that the proposal -- involves the making permanent of a temporary addition of a Sub Assistant Surgeon and to request you to be so good as to state how the resulting recurring charge is proposed to be met.

I am further to enquire whether a fixed allowance cannot be paid to the Sub Assistant Surgeon for his periodical visits to Attigundi instead of milage &c., as recommended.

Most Respected Sir,

I beg to bring to your begnine notice the following few lines with a hope to get favourable orders passed in the matter.

There was a Dispensery at Attigundi from a long time and a Sub.Assistant Surgeon was deputed in charge thereof. The Hospital was useful to many of the coolies of the estates alround and the people of the villages nearby Attigundi.

Since three or four months the Dispensary having been closed for want of a Sub.Assistant Surgeon, many people are put to much inconvenience.

I beg of you therefore to appoint a Sub. Assistant Surgeon at once. A midwife is quite necessary for Attigundi and I pray that one may be appointed. I shall undertake to add gradually wards to the present Hospital building and see to its improvements in course of time.

I pray in the interest of the people of these parts that the above requests may be complied with as early as possible,for which act of kindness I shall ever feel grateful.

I beg to remain,

SIR,

With reference to your letter No.L.4506-Med.77-21-3, dated the 8th February 1922, I have the honor to state that although the objection raised therein is technically correct, in as much as the Attigundi Dispensary (among others) in the Kadur District has been sanctioned only as a temporary measure, yet, in view of the fact that provision for these institutions has been ordered to be retained even -- after other activities of the Malnad Improvement Board were subjected to retrenchment and that there is every likelihood of these institutions being made permanent, the arrangement ordered in G.O.No.3206-8-Med.40-15-38, dated 22nd November 1916 may be reckoned as practically a permanent one. If this cannot be done, then, for want of other ways and means, the transfer of the Sub Assistant Surgeon from the establishment of Attigundi to that of the Sanatorium at Mysore may kindly be permitted ~~xxxx~~ for the present. When the question of posting a Sub Assistant Surgeon to Attigundi comes up after proper buildings are made ready there, or the question of abolishing the said temporary dispensaries arises, then it will be necessary for me to point out some definite source for

SIR,

With reference to the correspondence ending with this office letter No. G.C.177-2 dated 9th March 1922, I have the honour to bring to notice that it is more than five months since the Attigundi Dispensary ceased to be worked and representations have been received from the Sajjade of Baba Budan and from the President, Kadur District Board, for the restoration of medical arrangements for the Baba Budan area.

2. I may also state that the Sajjade of Baba Budan Dargah has offered to give a free building for locating the Dispensary and I am asking the District Medical Officer to report on the suitability of the same. On receipt of his report and after ascertaining whether quarters for the Sub Assistant Surgeon and Staff of the Dispensary are also available, and whether the District Board is prepared for the establishment of a permanent Local Fund Dispensary there and to meet its share of the maintenance charges, proposals for the re-opening of the dispensary will be submitted to Government.

To

T.E. JAYARAMA IYER, Esq., B.A., B.L.,

SECRETARY TO THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE,
Revenue DEPARTMENT,
BANGALORE.

SIR,

With reference to your letter No.L.4507/Med. 77-21-2 dated 8th February 1922 forwarding for my opinion a copy of letter No.G.C.177 dated 6th January 1922 from the Senior Surgeon in Mysore recommending the temporary closing of the Malnad Improvement Dispensary at Attigundi in the Chikmagalur Taluk, I have the honour to state that in consideration of the unhealthiness of the locality, the ~~three~~ then Malnad Improvement Committee suggested the opening of the Dispensary at Attigundi as there were no medical institutions within easy distance for people living in those parts. Attigundi is so situated that around which there are numerous coffee estates and villages ~~who~~ which are in constant need of medical aid.

2. Ever since the dispensary was opened at Attigundi it was reported to have been well attended and quite popular under the several medical officers who resided at the place. It was only when Sub Assistant Surgeon Mr. David was posted to the place the institution lost its popularity and the -- attendance dwindled on account of his unsteadiness and -- indifference

indifference. He was stated to have stopped all the time he was in charge of the dispensary at Chikmagalur paying only occasional visits to Attigundi whenever he pleased. It is his absence from the place and the total neglect of his duty that brought the institution to its deplorable condition. Accommodation for the residence of the Sub Assistant Surgeon could have been easily secured with the help of the local people if like his predecessors Mr. David had only won the popularity amongst the residents of the place and tried for a dwelling house.

With regard to the inadequacy of the building referred to by the Senior Surgeon in para (1) of his letter under -- reference, I beg to state that in addition to the present building there is another(which was once intended for the Reading Room) available for the medical subordinate either to make it his quarters or to locate the dispensary. Thus the present building together with the one referred to above could be placed at the disposal of the Medical Department and with this additional building the accommodation ought to be quite ample both for the quarters of the Sub Assistant Surgeon and the dispensary.

With regard to para (2) of his letter, it may be stated that no such inadequacy of the building was complained of except by Sub Assistant Surgeon Mr.David who did not even attempt to make a stay there and this was only put forth by him as an excuse for his negligence of duty, and absence from the place; and whose conduct was reported upon by the Senior Surgeon to Government for orders. It may be said that the popularity of such institutions mainly depends upon the attitude and willingness of the officers posted to their charge.

Regarding para (3) of his letter, I may mention that the malnad people are as a general rule quite sickly and it is they that are in great need of medical assistance and it is specially so in the case of the remotest parts like Attigundi within about 10 miles radius of which there are no dispensaries to give any relief to the sick. The bi-weekly visits by the Sub Assistant
